APPLICATION FOR COUNCIL GRANT ASSISTANCE WITH LIFE SAFETY WATER LINE INSTALLATION

Applications will be based on health and life safety issues that include contaminated/nonpotable wells, dry wells and fire protection. Greenville County Public Works Department, Engineering Division, will take applications for Council Grant Assistance with Life Safety Water Line Installation. Applications will be reviewed and scored by the Facilities Project Manager, Assistant County Administrator for Public Works, and the Engineering Division for completeness and criteria and will be submitted to PublicWorks, Planning and Development Committee for consideration on a first come, first serve basis.

This is a 50/50 grant program; therefore, the County of Greenville, upon approval by County Council, will provide 50% and the applicant will provide the other 50% for the installation of the water main and/or fire hydrant down the public road. The applicant has 60 days to secure their portion of the funding and remit to the County of Greenville. The respective property owners are responsible for the tap/meter fee and connection to the dwelling.

Applicant's Name Erlene T. Burns Phone Number 864 999 1322
Street Address 625 Sandy Springs Rd. Piedmont, S.C. 29673
Mailing Address (if different) _____

To: Greenville County
Re: New Water Line

This letter is in reference to a new water line being installed on Sandy Springs Rd. to service house number 625. South Greenville Fire District serves this location with fire protection. It is our hopes that along with the water line a fire hydrant will be installed as well.

The fire hydrant will not only serve this address but would provide fire protection to the surrounding are as well.

If myself or the South Greenville Fire District can be of any further help please don't hesitate to let me know.

Sincerely,
Kenneth Taylor

Fire Chief

Re: Water Availability – Sandy Springs Road – Tax Map #0594020101800.

Dear Ms. Burns:

This refers to your request for an estimate for a water main extension to serve the above referenced property.

According to our measurements, a water main could be extended 479 feet along Sandy Springs Road to serve the property. The applicant is required to advance funds for a water main installation at \$30 per foot or 50% of the project cost/linear foot of water main, whichever is greater, under a standard Installation Agreement with the Commission.

Accordingly, your minimum project cost would be 479 feet at \$30.00 per foot for a total of \$14,370. Your actual cost could be significantly greater depending on bids for the project. Price and policy are subject to change without notice.

In addition to the cost of the main extension, the requesting party must pay standard connection fees to Greenville Water (see www.greenvillewater.com/development-fees/) and all applicable plumbers' fees.

Please contact us at your earliest convenience if you would like to proceed with this project.

If we can be of further assistance, please let us know.

Sincerely,
GREENVILLE WATER

Susan Overstreet
Senior Engineer
