Staff Report	<p>ANALYSIS:</p> <p>The development requirements for both R-7.5 and R-6 are the same with a few differences, the required minimum square footage per lot and the allowable density. R-7.5 requires a minimum square footage of 7,500 sqft per lot, where R-6 requires a minimum square footage of 6,000 sqft per lot. R-7.5 allows 5.8 units per acre. R-6 allows 7.3 units per acre.</p> <p>SUMMARY:</p> <p>The subject parcel zoned R-7.5, Single-Family Residential, is 0.35 acres of property located on Easley Bridge Road approximately 0.5 miles southwest of the intersection of Easley Bridge Road and Pendleton Street. The parcel has approximately 100 feet of frontage along Easley Bridge Road and 200 feet of frontage along 4th Street. The applicant is requesting to rezone the property to R-6, Single-Family Residential.</p> <p>The applicant states the proposed land use is for a quality affordable rental home.</p> <p>CONCLUSION:</p> <p>The Judson Community existed prior to zoning in 1973, with an average lot size ranging from 6,000 square feet to 8,000 square feet. The applicant is requesting to rezone to R-6, Single-Family Residential. Staff believes rezoning this parcel to R-6, Single-Family Residential would be appropriate based on the surrounding lot sizes located in the Judson area. It is also consistent with the Judson Community Plan.</p> <p>Based on these reasons staff recommends approval of the requested rezoning to R-6, Single-Family Residential.</p>
