What specific skills do you believe you could contribute as a member of this board or commission?

I believe that Greenville County boards are in need of more diverse representation and with my current experience in working with the greater Greenville community, I could be a voice for the "young professional" demographic when it comes to developing parks and recreation programming and facilities. I personally utilize Greenville County parks and recreation services (more than anything, the Swamp Rabbit Trail!) and I have a passion for growing Greenville in this way. As someone who is not from the South at all, I have found Greenville to be my home and thus contunally want to seek out avenues to its continued success as one of the best cities to live. I believe in creating parks and recreation services that are inviting and accessible to all.
