**What specific skills do you believe you could contribute as a member of this board or commission?** \_\_\_\_\_

As a local architect with 12+ years of experience, I have an understanding of planning and its influence on the built environment, combining academic and real-world knowledge. My masters' thesis was focused on suburban planning and transit-oriented design and planning has long been a personal interest of mine. I've decided that instead of just being vocal about growth and the issues facing Greenville County I should act and work to better the future growth of the County.
