## **Congratulations on your grant award from the Duke Energy Foundation!**

I am pleased to let you know that your recent grant to the Duke Energy Foundation was approved in the amount of \$15,000 for a 3-year subscription to the Baron Threat NET. This was a very competitive process and your organization was one of 33 grants funded totaling \$500,000. We look forward to working with you to increase South Carolina's storm resiliency and preparedness. Please read the information below carefully.

### **We'd like to ask you to help us share the good news!**

#### **Communications Toolkit**

The Duke Energy Foundation will distribute the news release on Monday, June 3 announcing all our grant recipients and I will send that release to you to share. We ask that you hold off on announcing your grant until our release has gone out. Please work with our media relations manager, Ryan Mosier ([ryan.mosier@duke-energy.com](mailto:ryan.mosier@duke-energy.com)) to incorporate quotes from Duke Energy and to review your news release before it is sent.

I also ask that you reach out to your district manager, Linda Hannon ([Linda.Hannon@duke-energy.com](mailto:Linda.Hannon@duke-energy.com)) to schedule a check presentation photo op that we can use to promote this great news.

Please keep us posted on your program and any upcoming milestones, events and/or compelling stories. We would love to support your communications and have many channels through which we can promote the great work of your organization.

#### **Social Media**

For those of you with social media channels, please help us amplify our June 3 grant announcement on social media by tagging us in your posts.

Facebook @DukeEnergy – it will be the account with 244K+ followers, there are several scam ones

LinkedIn @Duke Energy Corporation

### Grant reporting schedule

Grant recipients are required to submit an electronic Impact Report at the end of their 12-month grant cycle. The grant cycle begins the day your check is cut. Email notifications about the report will start 10 months into the grant and will be sent to the contact listed in our online grant platform. In your report, we're particularly interested in tangible success stories that highlight the impact of the grant and could appeal to external audiences.

### Payment details

Your payment will be processed at the end of this month and mailed directly to the address provided on the grant application or via electronic transfer if you have set that up in the grant management system. It takes between 30 and 45 days from the time the check is processed for it to reach your organization, so you can expect payment at the end of June or shortly after.

We're glad to have you on board as a Duke Energy Foundation grant recipient. Thank you for the good work you're doing for the communities we serve.

Best regards,

Amanda Dow  
Director, Duke Energy Foundation
