

It is difficult to estimate the number of people who have been exposed to the water-borne disease. According to the Ministry of Health, the total number of cases of cholera reported in 1992 was 1,142.

• The following is a list of the names of the members of the Board of Directors of the New York Stock Exchange, the present Chairman and Vice-Chairman, and the date of their election.

1 Robert L. Johnson, "The First and Second National Bank of the United States," *Journal of the National Bank Note and Currency Association*, Vol. 1, No. 1, April 1902, pp. 1-10.

8. It has been suggested that the best way to evaluate the effectiveness of a new treatment is to compare it with the best treatment available at the time. This is a reasonable approach, but it must be remembered that the best treatment available at the time of the study may not be the best treatment available today.

As a result, the number of species in each group is proportional to the number of individuals in that group.

For more information about the study, please contact Dr. Michael J. Hwang at (319) 356-4000 or email at mhwang@uiowa.edu.

For more information about the study, contact Dr. Michael J. Hwang at (319) 356-4000 or email at mhwang@uiowa.edu.

It is also important to note that the results of the present study are based on a small sample size.

For more information about the program, contact the Office of the Vice President for Research at 319-335-1231 or visit www.vpr.iastate.edu.

In the third, if applicable, clause of the Monteparee Order of Payment, if a payment made by the Monteparee exceeds the amount of payments actually made by the Monteparee for fees or amounts of insurance premiums at the time of payment, the amount of the excess, if the same is unpaid, at the option of the Monteparee, shall be treated as an unpaid premium to be paid by the Monteparee, or refunded to the Monteparee. If however, the unpaid premiums made by the Monteparee under (b) of paragraph 2, preceding shall not be sufficient to pay taxes and assessments and insurance premiums when the same shall become due and payable, then the Monteparee may add to the Monteparee the amount of the taxes and assessments before the date when payment of such taxes, assessments and insurance premiums should be due. If so, and that the Monteparee then tender to the Monteparee, in accordance with the provisions of the note which reads "Full payment of the sum indicated is expected thereby," the Monteparee need not pay the amount of such unapplied tax, assessment or insurance premium as the sum of the Monteparee, all payments made under the provisions of (a) of paragraph 1 hereof being the Monteparee and not the amount indicated in (b) of paragraph 1 hereof. If however, there is a deficit between the sum of the taxes and assessments and the amount of the unapplied sum of the premiums stated above, (b) of the蒙特派瑞, it should be paid by the Monteparee at the time of payment, or at the time of the return of the funds indicated in (b) of the蒙特派瑞, whichever is later. The amount of the unapplied sum of the funds indicated in (b) of the蒙特派瑞, shall be treated as an unpaid premium to be paid by the Monteparee, or refunded under the蒙特派瑞, if applicable.

It must be all very well to have a good time, but it is not the best way to live. The best way to live is to work hard at your studies, to make friends, to help others, to be kind, to be honest, to be brave, to be modest, to be patient, to be cheerful, to be good, to be happy.

It is also important to note that the results of the present study are based on a small sample size and further research is required to validate these findings.

On 10 January 1944, the 1st Battalion, 10th Cavalry, was ordered to move to the area of the Salween River, where it would be used as part of the force to defend against the Japanese. The 10th Cavalry had been assigned to the 1st Cavalry Division, which had been sent to the area to help defend against the Japanese. All units of the 1st Cavalry Division were to be used to defend against the Japanese. All units of the 1st Cavalry Division were to be used to defend against the Japanese.

For the first time in history, we have the ability to measure the effects of our actions on the environment. This is a powerful tool that can help us make better decisions about how we live our lives and protect the planet for future generations.

The first of the present series of publications on the subject of the history of the Church in the United States is now ready for distribution. It is entitled "The History of the Methodist Church in the United States," and is written by Dr. J. C. Green, D. D., of the Methodist Theological School in New York. It is a comprehensive history of the Methodist Church in the United States, from its earliest days to the present time.
