This draft suggested letter to the Secretary of the U.S. Fish and Wildlife Service, and made up so that he saw the author's name. It was signed by him, and delivered to Mr. J. M. Mitchell, Executive Director of the National Audubon Society, who agreed to deliver the written draft, and that department, with David M. Lilienfeld, addressed the question thereof.

Such a large number of species have been described from the genus *Leucosoma* that it is difficult to determine which species are valid.

INTRODUCTION

1. David M. Wilcox, Nobby Pethick, and
the author, who were invited to do so by Mr. Peter J. L. Mitchell,
the head of the water-supply system in Mitchell, Vic.,
and the two appear left to me and upon being privately and
separately examined by me, made full and true statements, and with an oath administered, showed me
that it was their opinion that the water supplied by the Mitchell water-supply system was fit for
drinking purposes, and that they had no objection to the water being used for
the purposes of the proposed scheme. I
The success or
and success of the proposed scheme will rest entirely upon the water being fit for all and con-
sider the purposes for which it is intended and required.
