

# MILLS MILL

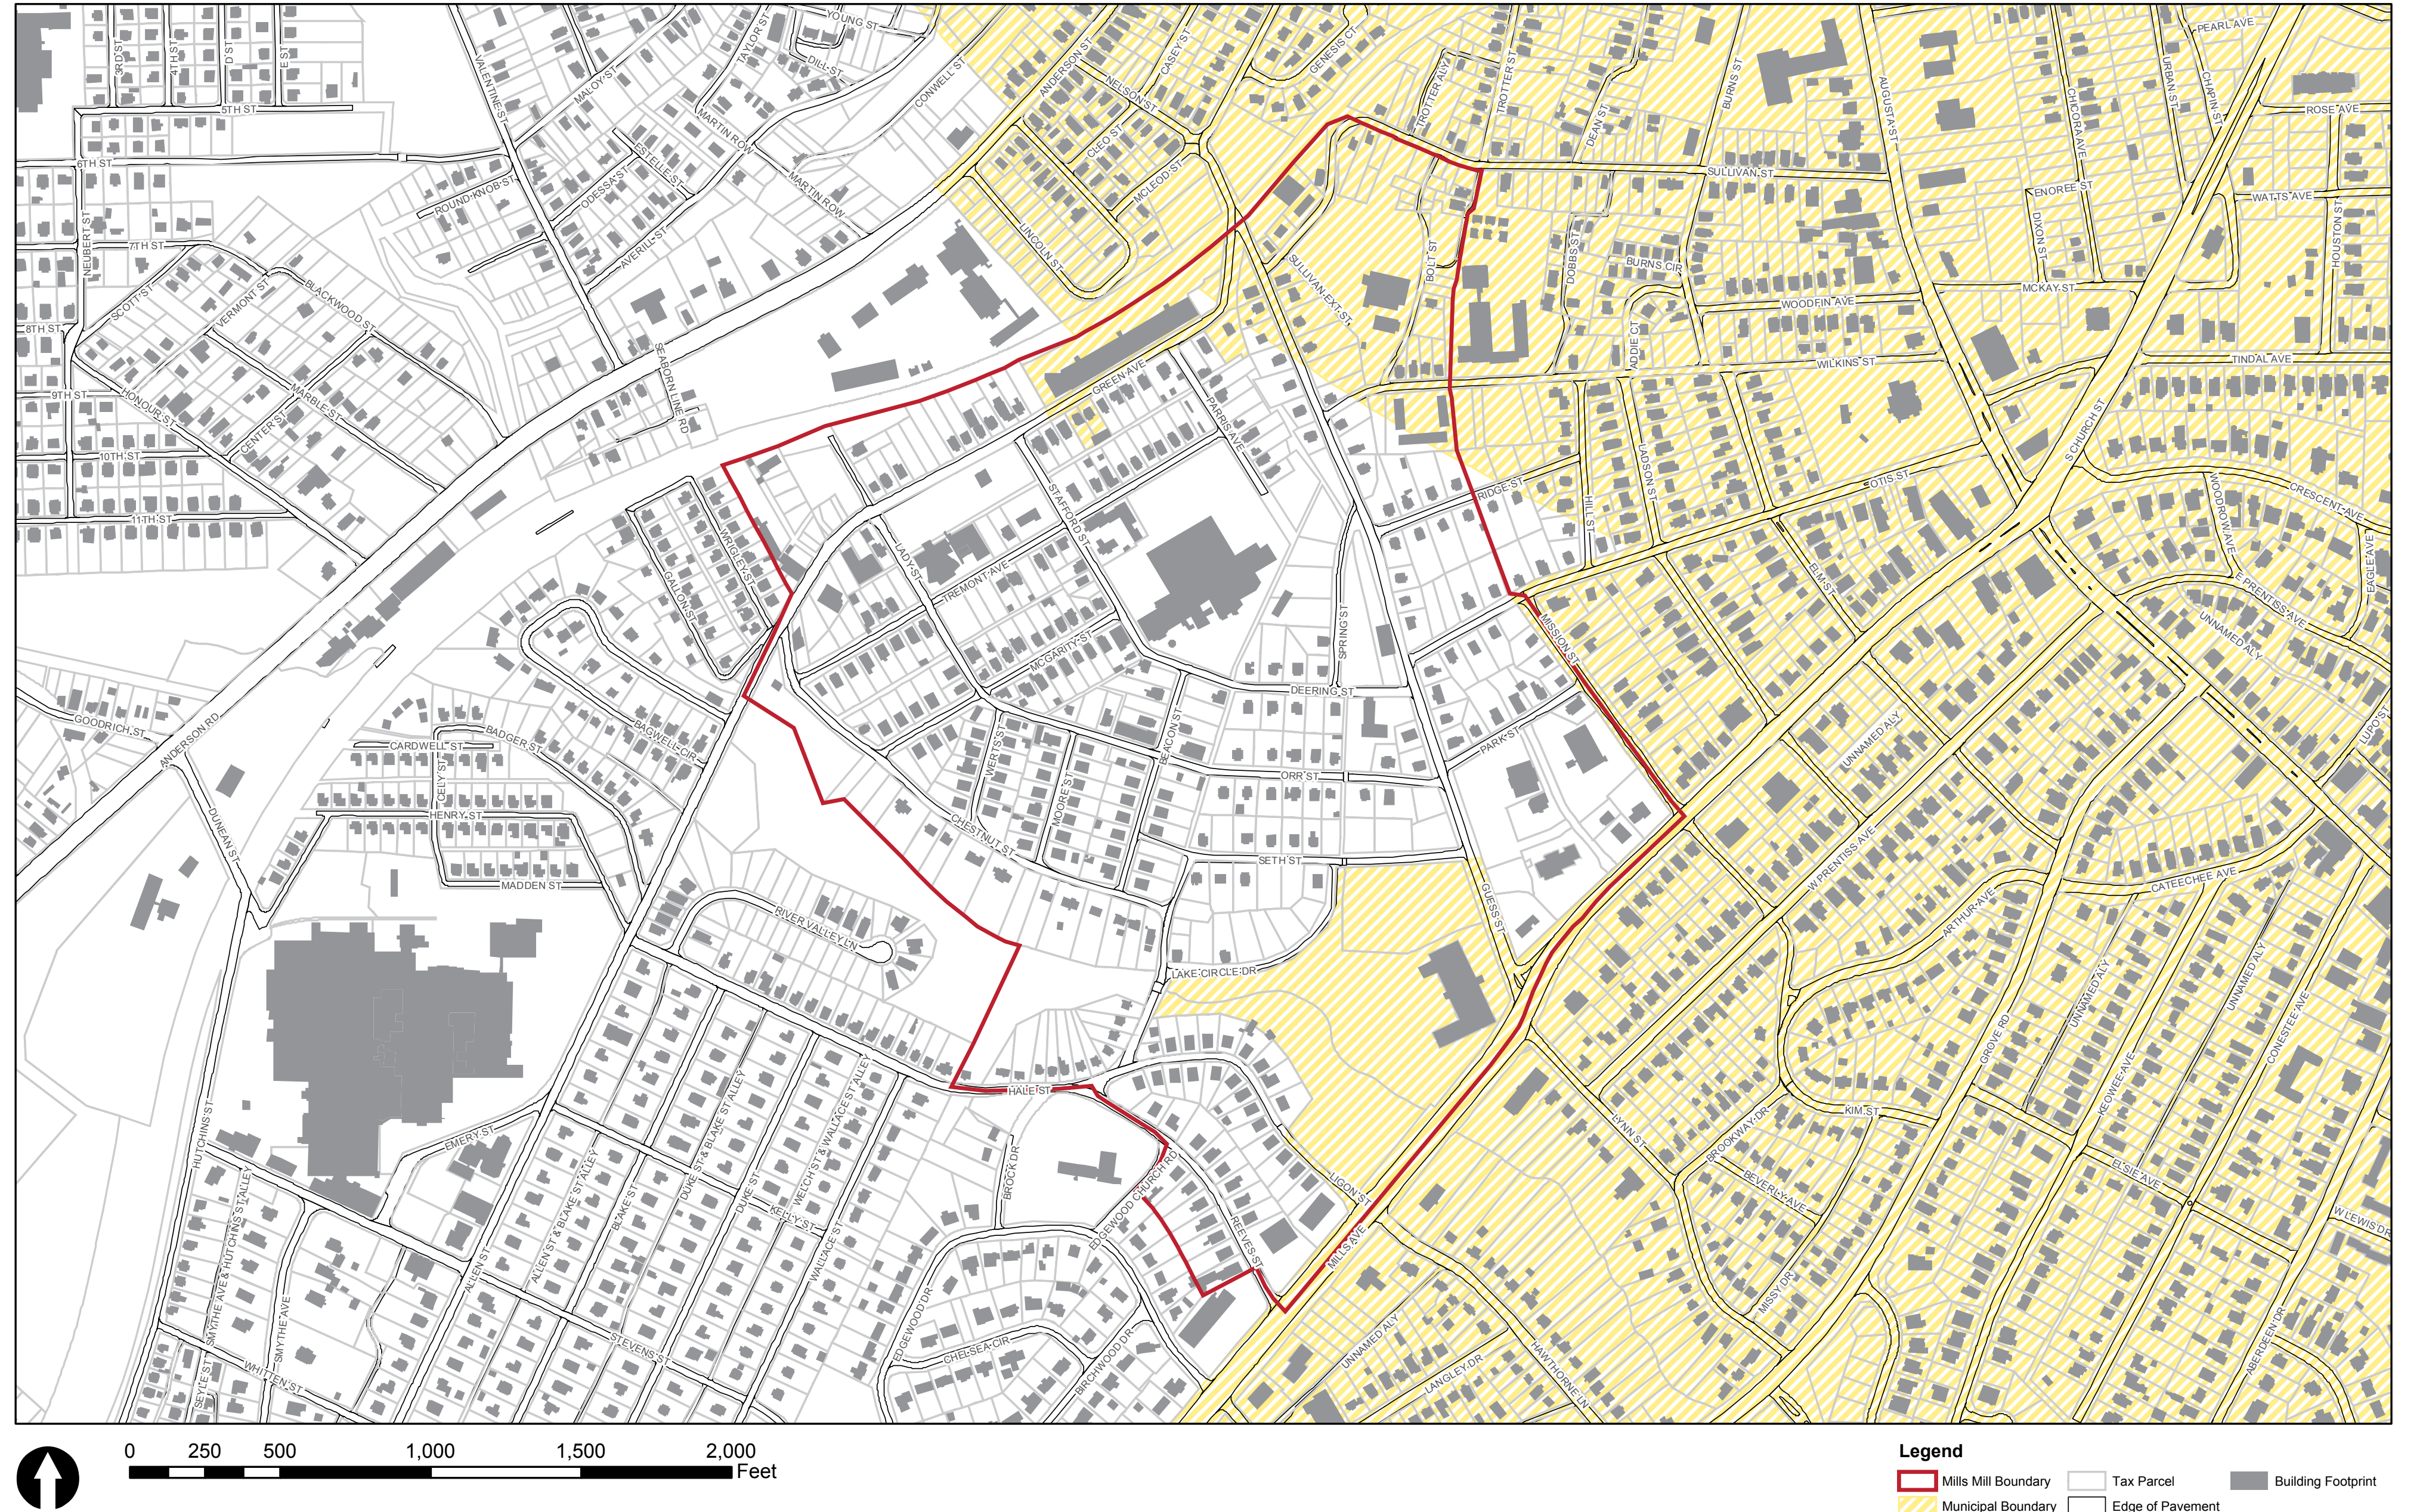

These boards contain some information about the Mills Mill Community. This information includes census data and some projections concerning the people, the housing, local recourses, and road conditions in the Mills Mill Community.

The collection of this information is just the beginning of the community planning process. Getting your ideas about what issues the plan should address such as public safety, recreation, beautification, etc. would be the next part of the plan. Forming a citizen committee to work with stakeholders to write the plan to include what needs to be done and who could possibly help make the plan happen would follow. A formal adoption process by the Greenville County Planning Commission and Greenville County Council would be the last part of the process. This process will take about 6 to 8 months. Then working on the plan would happen over the next several years.

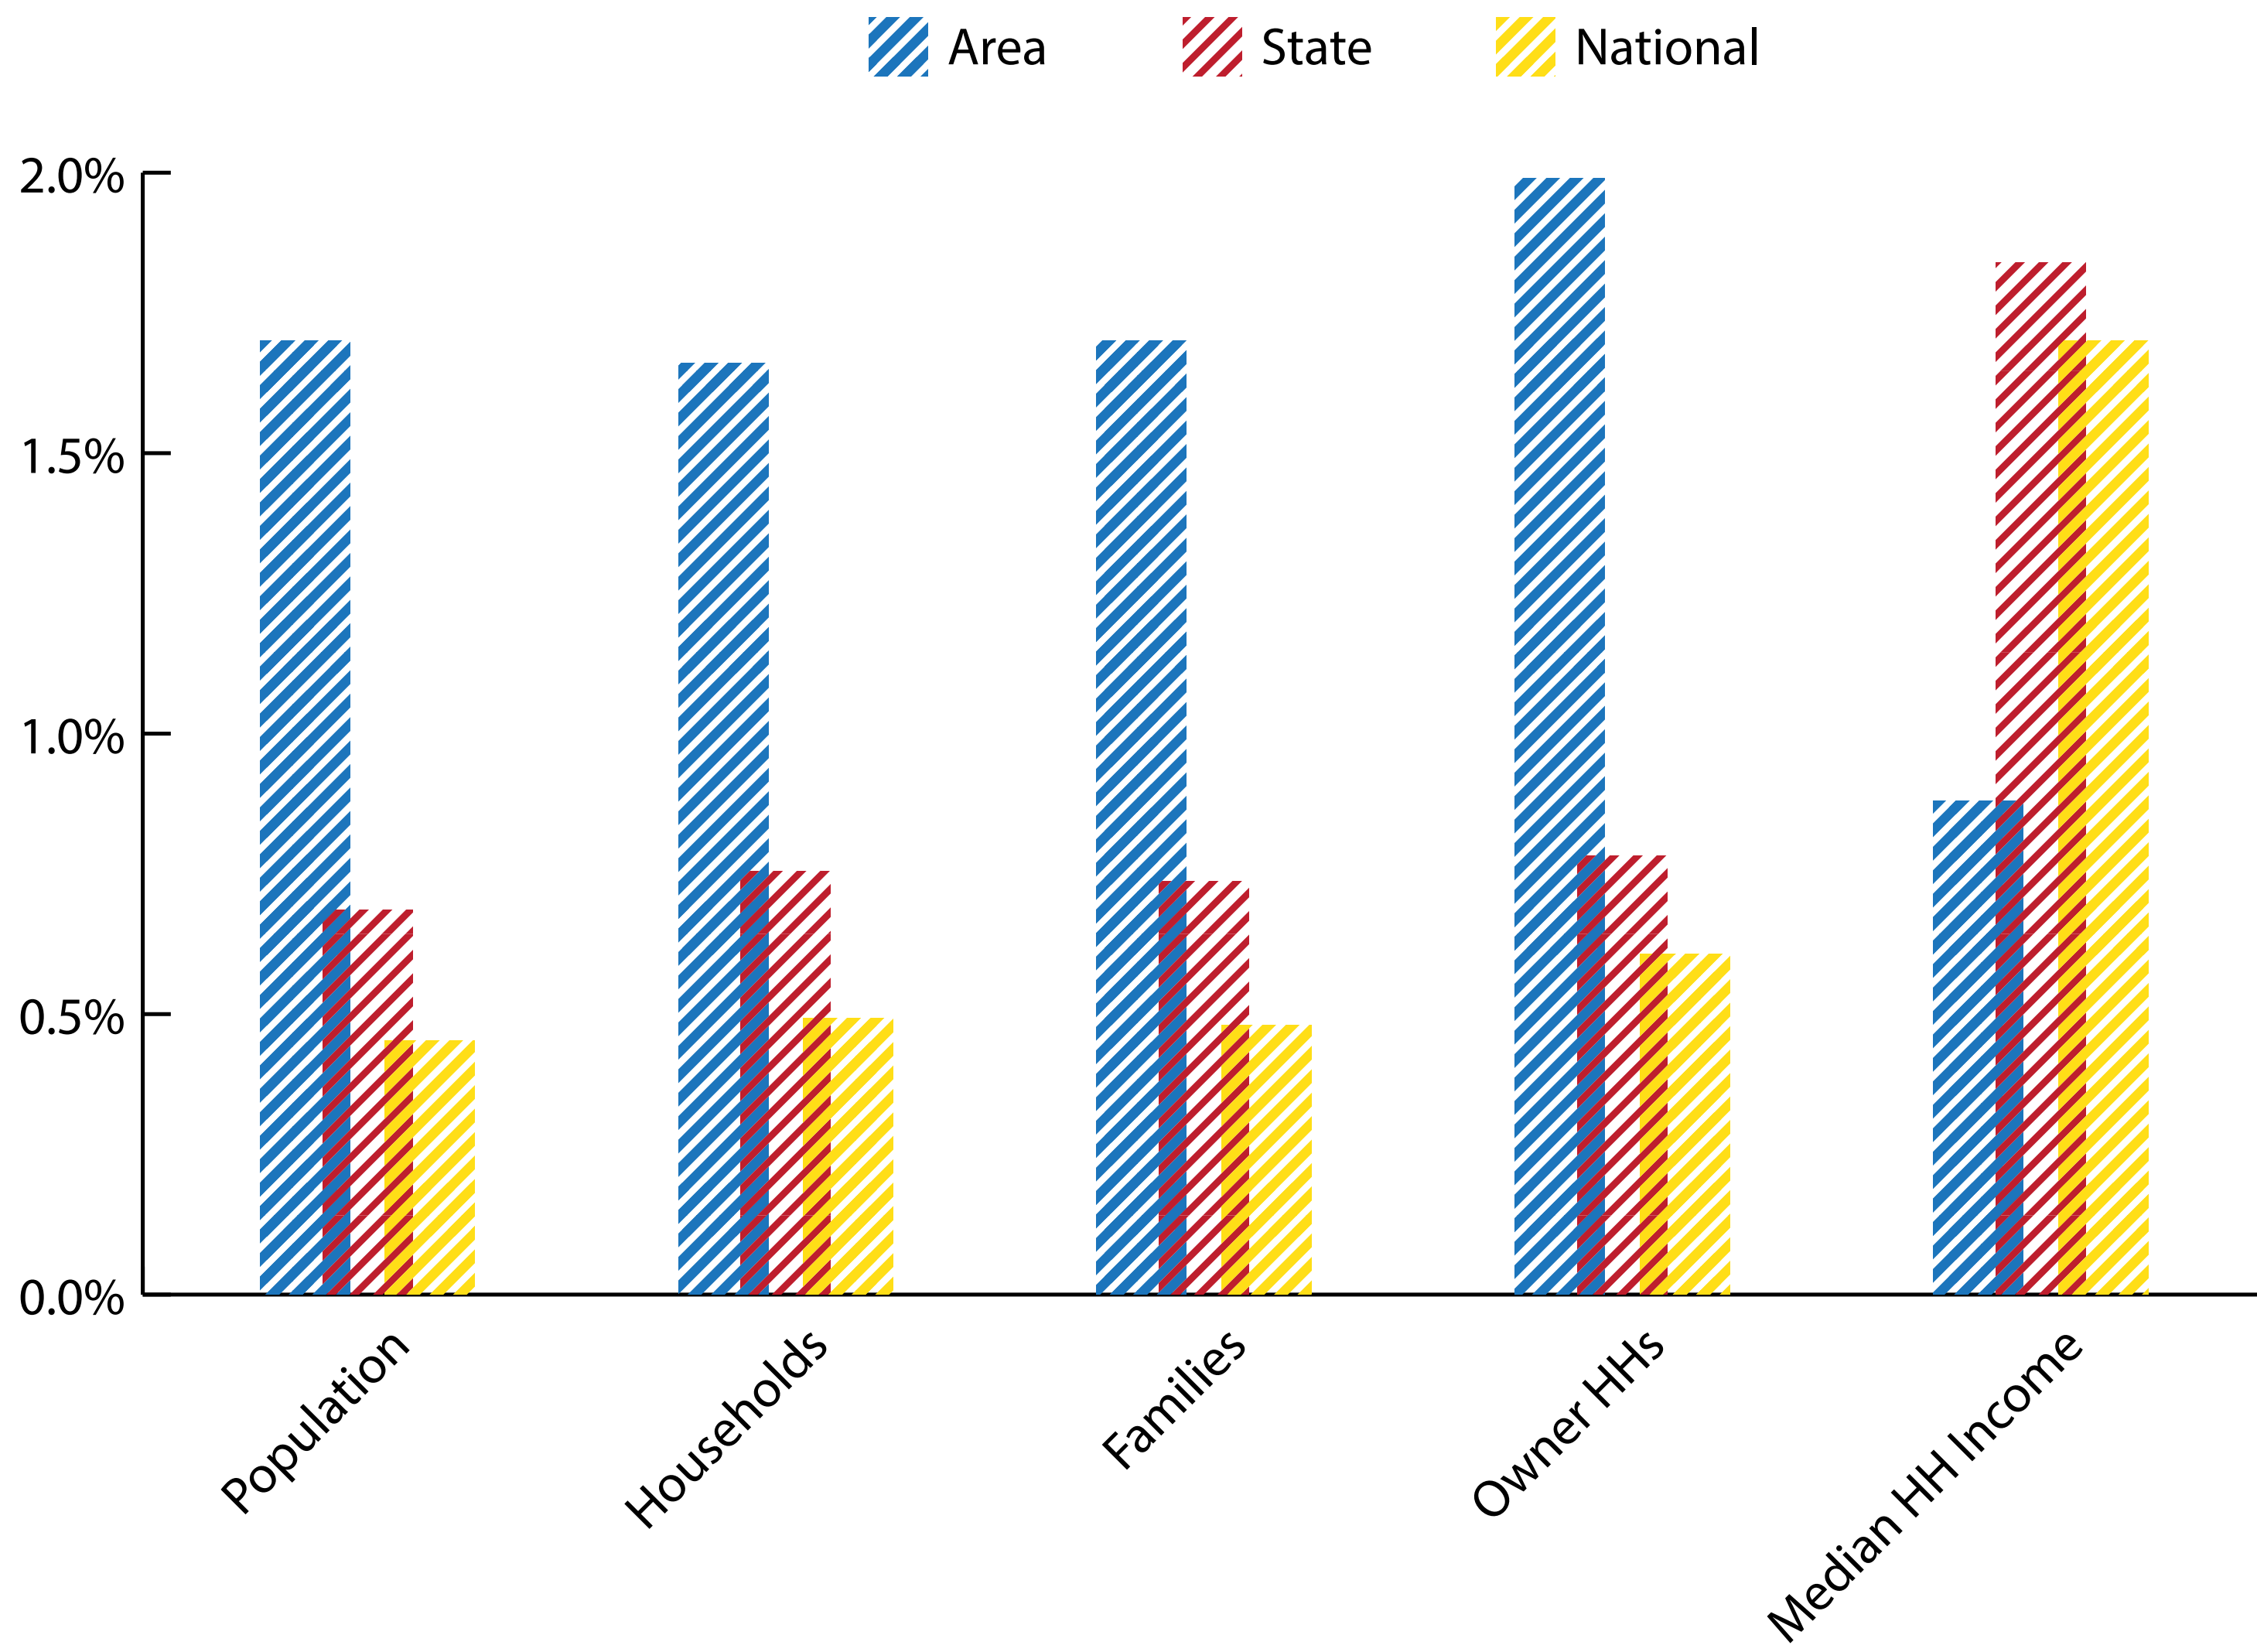

In order to gather some more detailed information from the community, we invite you to participate in an online survey. If you do not have access to the internet, we can provide you with a physical copy of the survey. To take the online survey, follow the link or QR code below:
